

**City of Castle Pines Colorado Contracts Directly with
Terracare Associates to Provide Public Works Maintenance Services**

Terracare Associates, LLC has been awarded the annual Roadway Maintenance contract for the City of Castle Pines, Colorado. Incorporated in 2008, Castle Pines is the newest city in Colorado and is located 20 miles south of Denver. Boasting a population of nearly 10,000 people, the city encompasses approximately 9 square miles. Terracare Associates is proud to partner with the City of Castle Pines to provide their citizens with exceptional public works maintenance service.

Terracare Associates maintains a respected reputation gained through more than 40 years of exceptional service and commitment to client satisfaction. Headquartered in Littleton, Colorado, Terracare Associates provides comprehensive public works maintenance services as well as landscaping and aquatics maintenance throughout the Western United States. Currently Terracare Associates has a number of other municipal clients, most notably the Cities of Centennial and Lone Tree, Colorado.

Terracare Associates will be performing road and right-of-way maintenance along with snow and ice control operations for the City of Castle Pines. This work will include pavement striping, pothole patching, asphalt patching, crack seal, thermoplastic markings, sign installations, street sweeping, curb, gutter and sidewalk maintenance, cross pan and apron maintenance, crosswalk painting and concrete patching. Other services included in the annual contract are snow removal, parks and recreation maintenance and maintenance of the City's water splash pad.

Terracare Associates was previously performing the work as a subcontractor to a large engineering firm that contracted directly with the City for most major City provided services. The City of Castle Pines recently decided to streamline their outsourcing process. They chose to absorb some services that were previously outsourced and also contract directly with Terracare Associates to provide public works maintenance services to the community.

Terracare Associates offers their privatized public works operations throughout the United States. Alongside the public infrastructure maintenance division, a landscape division offers landscape maintenance services throughout the Western U.S.
