Colorado Department of Transportation (CDOT) Contracts with Terracare Associates to Provide Roadway Maintenance Services for Interstate 25 HOT Lanes through Denver

LITTLETON, COLORADO – Terracare Associates, LLC has been awarded the annual roadway maintenance contract for the Interstate-25 HOT (High Occupancy Traffic) lanes that run through Denver, Colorado. Opened in June 2006, the I-25 HOT lanes are traveled by nearly 300,000 vehicles per month. With a current population of 2.8 million, and a projected growth of 1 million in the Denver metropolitan area within the next 15 years, daily traffic in this corridor is likely to increase.

Under the terms of its new agreement with the Colorado Department of Transportation (CDOT), Terracare Associates will be performing road and right-of-way maintenance along with snow and ice control operations along the I-25 HOT lanes section of roadway. This work will include pavement striping, pothole patching, asphalt patching, crack seal, sign maintenance and installation, road sweeping and concrete patching.

Although the Colorado Department of Transportation has partnered with private companies previously to provide roadway maintenance of state roads, this is the first section of roadway that Terracare Associates has managed for CDOT. Terracare Associates is proud of their involvement in this project and looks forward to their partnership with CDOT to provide patrons with exceptional roadway maintenance, snow removal and ice management service.

Terracare Associates has earned a reputation through more than 40 years of exceptional service with a strong commitment to client satisfaction. Headquartered in Littleton, Colorado, Terracare Associates provides comprehensive public works maintenance services as well as landscaping and aquatics maintenance throughout the Western United States. Currently Terracare Associates has a number of other roadway and right-of-way maintenance clients, most notably Northwest Parkway and E-470, both of which are roadways located in the Denver metropolitan area.

Terracare Associates offers a full spectrum of maintenance services including; complete landscape management, irrigation system maintenance, annual color installations, snow removal, design services and public infrastructure.
